PROFESSIONAL SUMMARY

Food Science and Technology diploma learner with a grounding in food safety, quality control, HACCP and 5S. Completed 3 QA and automation projects and 5 trainings combining AI automation, workflow optimization and data modeling. Seeking an entry-level quality assurance or production role in the Bangladesh food processing industry.

EDUCATION

Diploma in Engineering in Food Science and Technology, Naogaon Polytechnic Institute (NPI) 2024 – Present

GPA: 3.50 (Ranked 2nd in Department, Nov 2024)

- Studied Food Processing Technology, Quality Control, HACCP Principles, Laboratory Instrumentation, Food Preservation and Industrial Safety.

Secondary School Certificate (SSC), Govt. Laboratory High School, Rajshahi

2016 – 2024

GPA: 3.94 (Passing Year: 2024)

- Studied General Science, Mathematics, Physical Sciences and Information and Communications Technology (ICT).

SKILLS

Food Technology & Operations: Food Safety (HACCP, ISO 22000 Baselines, 5S Methodology), Food Processing and Preservation (Thermal Lethality, HTST, Retort, Freezing and IQF, Dehydration), Quality Assurance and QC Swabbing, Cold Chain Telemetry, Supply Chain Traceability (FEFO and FIFO).

Digital Productivity & Systems: AI Tools, Workflow Automation (Web hooks, Google Workspace Automation), Spreadsheet Analytics (Excel Data Modeling, Pivot Tables, Formulas), Quality Assurance Digital Logging and Real-Time Alerting.

Languages: Bengali (Native), English (Professional Proficiency), Urdu (Conversational).

PROJECTS

Preventive Food Safety and Digital HACCP Architecture (Quality Assurance)

- Designed a 4-part food safety system covering hazard profiling, thermal kill-step CCPs, 5S floor-sanitation checklists and CAPA escalation aligned to ISO 22000 baselines to preserve regulatory compliance.
- Replaced paper records with zero-paper digital logs under ISO 22000 baselines, removing manual transcription errors and making every record audit-ready.

Smart Quality Logging and Automated Non-Conformance Alerting (Automation and Web hooks)

- Built a 3-part quality logging workflow of mobile entry forms with validation rules, web hook supervisor alerts and Google Sheets field-loss analytics so supervisors hear about non-conformances instantly.
- Cut inspection-to-escalation time from hours to seconds by automating 3 steps (entry, alert and analytics), giving management real-time line-quality trends.

Analytical Spreadsheet Modeling and Process Control (Excel Analytics)

- Developed Excel templates with pivot tables and formulas covering 3 workflows (quality test parameters, recipe scaling and batch cleaning evaluation) to standardize how quality data is recorded.
- Moved batch-yield calculation and variance detection from manual checks to automated formulas across all 3 workflows, preventing material loss during processing.

VOLUNTEER EXPERIENCE

Active Member, Bangladesh Scouts, NPI Unit

- Organized expedition logistics and solved field problems as part of a team while keeping discipline under crisis conditions.

Volunteer, Bangladesh Red Crescent Society

- Coordinated emergency response and humanitarian relief support across public health and sanitation work.

Member and Contributor, Sholo Magazine

- Wrote on youth development and community perspectives for Sholo Magazine.

TRAINING AND CERTIFICATIONS

- Completed Government-Authorized AI Course:** foundational AI and digital productivity training (Aug 2026)
- Attended Seminar on Off-Grid Systems and Organic Farming:** sustainable agricultural systems (Feb 2026)
- Trained in Govt.-Authorized Food Processing Basics:** fundamental food processing and preservation techniques (Nov 2025)
- Joined Career Guidance Seminar:** NPI Career Club (Nov 2024)
- Learned MS Office Suite:** Basic Computer Training (Nov 2023)

INTERESTS

Organic Farming & Sustainable Agriculture, Off-Grid Community Development, New Technology & Innovation, Travelling and Reading.
